Votes cast by remote communication means will be rendered ineffective if the shareholders who cast the vote attend in person or if they divested the shares and the Company knows of this at least five days before the date expected for the Meeting at first call.

Without prejudice to the foregoing, the following priority system is established between the representation and remote voting when there are doubts:

3. Maximum amount of delegation: Under the present delegation, the Board of Directors will be able to issue the securities indicated in section 1 before for a maximum amount whereby the capital increases executed under this delegation, added to the increases that, in its case, were agreed under other authorizations in force proposed by the Board of Directors to the General Shareholders' Meeting in accordance with article 297.1.b) of the Law on Corporations, do not exceed, in nominal value, a half of the corporate capital as of the date of the delegation. In this sense, the amount of the capital increases that, in its case, and with the purpose to attend the conversion of obligations, warrants or other securities, are executed under this delegation, will be considered as included within the limit available at any moment to increase the corporate capital.

For the purposes of calculating the previous limit, in the case of warrants, the sum of premiums and exercise prices of the warrants of issuances agreed to under the present delegation shall be taken into account.

4. Scope of delegation: In the use of the delegation of powers agreed to herein and for illustration purposes only and by no means restrictive, it shall fall with the Board of Directors

to determine, for each issue, among others, its amount, always within the limit expressed, the place of issue -domestic or foreign- and the currency and, if foreign, its equivalent in euros; the denomination or mode, whether they are bonds or debentures, including subordinated ones, warrants, preferential shares or any other admitted in Law; the date or dates of issue; the number of securities and their nominal value, which shall not be less than the nominal value of the shares; in the case of warrants and similar securities, the price of issuance and/or premium, the exercise price- which may be fixed or variable- and the procedure, term and other conditions applicable to the exercise of the right to subscription of the underlying shares or, where applicable, the exclusion of such right; the fixed or variable interest rate, dates and coupon payment procedures; the perpetual or amortizable nature, and in the latter case, the term of amortization and the date or the dates of maturity; guarantees, the repayment rate, premiums and lots; the form of representation, by means of bonds or book entries; antidilution clauses; the subscription system; the range of securities and any subordination clauses; the legislation applicable to issuance; when applicable, request admission to trading in official or unofficial secondary markets, whether organized or not, domestic or foreign, of the securities issued with the requisites required in each case by the regulations in force; and, in general, any other condition of issuance, as well as, where appropriate, appoint the commissioner and approve the fundamental rules that are to govern the legal relations between the Company and the syndicate of holders of the securities issued, should the constitution of said syndicate prove necessary or be decided upon.

Likewise, the Board of Directors is authorized, when it deems appropriate, and subject, if applicable, to obtaining the necessary authorizations and conformity of the assemblies of the relevant syndicates of holders of securities, to change the conditions of the amortization of the fixed-income securities issued and their respective term, as well as the rate of interest which, if applicable, accrued by those within each of the issuances carried out under this authorization.

5. Bases and modalities of conversion: In the case of the issuance of convertible debentures or bonds, and for the purposes of determining the bases and modalities of conversion, it is agreed to establish the following criteria:
 - a) The securities that are issued under this agreement will be convertible into shares of the Company, according to a fixed or variable conversion ratio that can be determined or is determinable, and the Board of Directors will be empowered to determine whether they are necessarily, voluntarily or contingently convertible, and in the case of being voluntarily convertible and/or exchangeable, at the option of their holder or of the Company, with the frequency and for the period that is established in the issuance agreement, which may not exceed 15 years as of the date of issuance. This maximum term will not be applicable to the securities with a perpetual character which are convertible.
 - b) For the purposes of conversion, the securities will be valued at their nominal amount and the newly issued shares for conversion according to a fixed rate of conversion that is established in the agreement of the Board of Directors at which use of this delegation is made, or at the variable exchange rate to be determined on the date or dates indicated in the agreement of the Board, based on the stock market value of the shares of the Company on the date(s) or period(s) taken as a reference in said agreement, with

or without premium, the Board being entitled to determine the criteria of conversion it deems appropriate.

- c) It may also be agreed to issue convertible fixed-income securities with a variable conversion ratio. In this case, the price of the shares for the purposes of conversion shall be determined by the Board of Directors, and it may incorporate a premium or, where applicable, a discount on the price per share resulting from the criteria established. The premium or discount may be different for each date of conversion of each issue (or, if applicable, each tranche of an issue).
 - d) When conversion is applicable, fractions of a share that correspond to the title holder of the securities will be rounded down by default to the nearest lower whole number and each holder will receive in cash, under such conditions of issuance, the difference that may arise in such an event.
 - e) Under no circumstances will the value of the share for the purpose of the conversion ratio of debentures for shares be less than their nominal value. Also, in accordance with the provisions of Article 415 of the Law on Corporations, debentures may not be converted into shares when the nominal value of the former is lower than that of the latter.
 - f) At the time of approving an issuance of convertible debentures or bonds under the authorization contained in this agreement, the Board of Directors will issue a report developing and specifying, based on the criteria described above, the bases and modalities of the conversion specifically applicable to the issue in question. This report shall be accompanied by the corresponding report by the accounts auditor, other than the Company auditor, appointed for this purpose by the Commercial Registrar, referred to in Article 414.2 of the Law on Corporations.
6. Bases and modalities of the exercise of warrants and other analogous securities: In the case of the issue of warrants, it is agreed to establish the following criteria:
- a) In the case of the issue of warrants, to which by analogy the provisions of the Law on Corporations for convertible debentures, for the determination of the bases and modalities of their exercise shall apply, the Board of Directors is empowered to determine, in the broadest terms, the criteria applicable to the exercise of the rights of subscription of shares of the Company, derived from the securities of this kind issued under the delegation granted hereby, the criteria set out in paragraph 5 above applying in relation to such issuances, with the necessary adjustments in order to make them compatible with the legal and financial regime governing such securities.
7. This authorization to the Board of Directors also includes, without limitation, the delegation, in its favour, of the following powers:
- a) The power for the Board of Directors, under the provisions of Article 511 of the Law on Corporations, in relation to article 417 of said Law, to exclude, in whole or in part, the pre-emptive subscription rights of shareholders. In any case, if the Board of Directors were to decide to exclude the pre-emptive subscription rights of shareholders in relation to a concrete issuance of convertible debentures or bonds, warrants and other equivalent securities to these which it may decide to carry out under the present authorization, it shall issue, at the time of approving the issuance and pursuant to the

applicable legislation, a report detailing the specific reasons of company interest that justify such measure, which will be the object of the report by an independent expert appointed by the Commercial Registrar, as referred to in Articles 414, 417 and 511 of the Law on Corporations. These reports will be made available to the shareholders and reported to the first General Meeting held after the issuance agreement.

This authority shall, in any case, be limited to those increases of share capital carried out under the present authorization, as well as those carried out within the scope of the authorization provided under item eleven on the Agenda, up to a maximum nominal amount, as a whole, equal to 10% of the share capital at the date of adoption of this agreement (i.e., 7,466,826.325 euros of nominal value).

- b) The authority to increase the capital by the amount required to attend to the requests of conversion and/or exercise of the right to subscribe for shares. Said authority may only be exercised to the extent that the Board, adding the capital increased to meet the issuance of convertible debentures, warrants and other equivalent securities and the remaining capital increases that may have been agreed to under the authorizations granted by the present General Meeting, does not exceed the limit of half of the amount of share capital provided for in Article 297.1.(b) of the Law on Corporations. This authorization to increase the capital includes that of issuing and putting into circulation, on one or more occasions, shares representative thereof that are necessary to carry out the conversion and/or exercise of the right of subscription for shares, as well as that of rewording the Article of the By-laws concerning the amount of capital and, where appropriate, cancelling the part of such capital increase that has not proved necessary for the conversion and/or exercise of the right of subscription for shares.
 - c) The authority to develop and specify the bases and modalities of conversion and/or exercise of the rights of subscription of shares, resulting from the securities for issuance, taking into account the criteria set out in Paragraphs 5 and 6 above.
 - d) Delegation to the Board of Directors comprises the broadest powers which are necessary in Law for the interpretation, application, implementation and development of the agreements to issue securities that are convertible into shares of the Company, on one or more occasions, and corresponding capital increase, also granting it powers to rectify and complement them in all that were necessary, as well as for the fulfilment of all legally required requisites to carry them to fruition, it being possible to rectify omissions or defects of such agreements, indicated by whichever authorities, officials or bodies, domestic or foreign, also being empowered to adopt as many agreements and grant as many public or private documents considered necessary or convenient for the adaptation of the previous agreements of the issuance of convertible securities and the corresponding increase of capital to the verbal or written qualification of the Commercial Registrar or, in general, of any other competent domestic or foreign authorities, officials or institutions.
8. Admission to trading: Where appropriate, the Company will request admission to trade on official or unofficial secondary markets, whether organized or not, domestic or foreign, of convertible debentures and/or bonds or warrants issued by the Company under this delegation, empowering the Board of Directors, as broadly as necessary in Law, to carry out the procedures and actions necessary for admission to trading before the competent authorities of the various domestic or foreign securities markets.

It is expressly stated that in the case of any subsequent request for exclusion from trading, this will be adopted with the same procedures as the request for admission, to the extent that they are applicable, and, in such event, interest will be guaranteed to the shareholders or bondholders who opposed or did not vote for the agreement under the terms provided in the legislation in force. It is also expressly stated that the Company is subject to the rules that exist or may be adopted in the future in terms of Stock Exchanges, and especially, on trading, maintenance and exclusion from trading.

9. Power of substitution: The Board of Directors is authorized so that, in turn, it may delegate in favour of any of the members of the Board of Directors or any other person, whether or not a member of said body, the delegated powers referred to in this agreement.

Finally, there is a motion to render ineffective in the undrawn part Resolution Eight adopted by the General Shareholders' Meeting of the Company on 31 May 2018, whereby the Board of Directors of the Company was authorized to issue bonds, debentures and other fixed-income securities, convertible into shares, and warrants.
