This resolution will determine, if applicable, the maximum number of shares that may be allocated to this remuneration system in each financial year, the exercise price or the system for calculating the price for exercising options over shares, the value of the shares that may, if applicable, be taken as a reference, and the term of duration of this plan.

The Company may take out a third-party liability insurance for its directors under the usual conditions and in proportion to the circumstances of the Company itself.

Should a conflict of interest arise subsequent to the appointment and the shareholder being represented has not been informed of the possible existence thereof, the representative must inform the shareholder immediately. In both cases, if the representative has not received new precise voting instructions for each of the matters on which the representative has to vote on behalf of the shareholder, he should abstain from voting.

It is understood that a conflict of interest may exist when the representative is in any of the situations indicated in section 2 of Article 523 of the Corporations Law, or any provision which may replace it in the future.

In the event of any discrepancy between the text of this translation and the text of the original Spanish language document which this translation is intended to reflect, the text of the original Spanish language document shall prevail.

2. If the representation has been obtained by public request, the document granting the proxy must contain or be accompanied by the agenda, the request for instructions for the exercise of the right to vote, and specifications of how the representative shall vote in case that precise instructions are not given. It will be understood that a public request has been made when the same person has the representation of more than three (3) shareholders.

If no voting instructions were given with respect to the proposals contained in the agenda, it will be understood that the representative votes in favour of the proposals presented by the Board of Directors.

In the event that instructions could not have been given due to items not included in the agenda, the representative shall vote in the manner he deems most convenient for the interest of the Company and his/her represented.

If the represented shareholder has given instructions, and subsequent to the sending thereof there is an alteration of the circumstances which may harm the interests of the represented shareholder, the representative will be obliged to request new instructions. In this case, and if it is not possible to request or receive new instructions, the representative may vote contrary to the previously issued instructions, but must immediately inform the represented shareholder in writing, explaining the reasons for the vote.

All the foregoing is without prejudice to the provisions of article 187 of the Corporations Law, or any provision which may replace it in the future.

3. In the event that the directors of the Company, or another person on their behalf or in their interest, have made a public request for representation, the director who obtains it may not exercise the right to vote corresponding to the represented shares in those items on the agenda in which there is a conflict of interest, unless it has received precise voting instructions from the represented shareholder for each of the aforementioned items in accordance with section 1 above. In all cases, it shall be understood that the director is in conflict of interest with respect to the following decisions:

a) His/her appointment, re-election or ratification as director.

b) His/her dismissal or resignation as director.

c) The exercise of a corporate liability action against him.

d) The approval or ratification, where appropriate, of company operations with the director concerned, companies controlled by him or those he represents or persons acting on his behalf."

1. Whatever the number of its sessions, it will be considered a single General Shareholders' Meeting, with one set of minutes covering all the sessions. If proposals were prepared for items on which the General Shareholders' Meeting can resolve without their inclusion on the agenda, the Chairperson shall decide the order in which they will be submitted to a vote.

2. At the General Shareholders' Meeting, those matters that are substantially independent must be voted on separately. In any event, they must be voted on separately:

(a) The appointment, ratification, re-election or dismissal of each director, and

(b) The amendment of each article or group of articles of the bylaws that have their own autonomy.

The same rules set out in this section will be applicable when voting on proposals made by the shareholders that do not appear on the agenda. In any case, once a proposed resolution has been approved, all other proposed resolutions relating to the same issue and incompatible with it will be dismissed, without putting them to a vote.

3. It will not be necessary for the Secretary to expose or read out beforehand those proposed resolutions whose texts have been made available to the shareholders before the meeting or which the Chairperson, for any other reason, deems appropriate.

4. As a general rule, in order to favour the development of the General Shareholders' Meeting and based on the assumption that every shareholder who is absent before voting, without leaving evidence of his abandonment and item on the agenda in which it occurs, gives vote in favour of the proposed resolutions presented or assumed by the Board of Directors regarding the items included on the agenda, voting on the resolutions will be carried out in accordance with the following procedure and vote determination:

For the purposes of voting, the Chairperson shall ask for votes against and then for abstentions, so that it is not necessary to declare votes in favour.

With respect to blank votes, they will only be taken into account when the shareholder wishing to formulate so expressly requests it, without the Chairperson having to ask any question in this regard.

(b) For resolutions on items not included on the agenda or not assumed by the Board of Directors, votes against the proposed resolution submitted to vote will be considered those corresponding to all the shares attending the meeting, whether present or represented, deducting the votes that correspond to the shares whose holders or representatives bring to the attention of the Secretary or, where appropriate, the Notary, by means of a written communication or personal statement, their vote in favour, or blank or their abstention.

For the purposes of voting, the Chairperson will first ask for the votes in favour and then for the abstentions, so that it will be unnecessary the manifestation of the votes against. With respect to blank votes, they will only be taken into account when the shareholder wishing to formulate so expressly requests it, without the Chairperson having to ask any question in this regard.

For the purposes of the provisions of paragraphs (a) and (b) above, all shares appearing in the list of attendees will be considered present at the meeting, deducting the shares of shareholders or representatives who have left the meeting during the voting of the proposed resolution, provided that they have recorded their abandonment before the Secretary.

Communications or declarations provided for in paragraphs (a) and (b) above may be made individually with respect to each of the proposed resolutions or jointly for several or all of them, indicating the identity and condition (shareholder or representative) of who performs them, the number of shares to which they refer and the result of their vote or, where appropriate, abstention.

5. Notwithstanding in the provisions of the preceding section, if the circumstances justify it, the Chairperson may establish any other system for determining the vote that allows verifying the obtaining of the favorable votes necessary for its approval and recording the result of the vote in the minutes."

In this case, before beginning their intervention, the shareholders or their representatives who have requested to intervene must identify themselves by stating their name, whether they are acting on their own behalf or that of a shareholder, and in this case they must proceed to identify them, as well as the number of shares owned or represented with which they attend the General Shareholders' Meeting. Likewise, the Chairperson or, where appropriate, the Secretary of the General Shareholders' Meeting, will proceed to read the interventions that, if applicable, have been received electronically.*

4. *The Chairperson may order that the interventions take place all before the voting begins, or in relation to items on the agenda and as the voting of them progresses.*

The Chairperson will respond directly or through a designated person either after each shareholder's intervention or after the intervention of all of them, as he considers more convenient for the good order of the deliberation.

5. *Shareholders who wish to include in the minutes the content of their intervention, how they will vote their shares and, where appropriate, their opposition to the adopted resolution, must expressly request it and, if they want their intervention to be recorded literally, they must deliver the written text of their intervention, before initiating it, to the Secretary, or to the Notary if he attends the General Shareholders' Meeting to draw up the minutes, for its collation and subsequent incorporation into the minutes, if it is not chosen for its transcription in the body of the same. The same will apply to interventions received electronically.*

In the event that notarial minutes of the Meeting are drawn up, the Notary will proceed, for these purposes, in accordance with article 102 of the Regulations of the Mercantile Registry.

6. *In the exercise of his functions of direction and organization of the General Shareholders' Meeting, the Chairperson will have, among others the following powers:*

(a) To order the development of the shareholders' interventions in the terms provided in the previous sections.

(b) To limit the speaking time for the shareholders when the Chairperson considers that an issue has been sufficiently discussed.

(c) To moderate shareholders' interventions, being able to question them so that they adhere to the agenda and observe the appropriate rules of correction in their intervention.

(d) To call the shareholders to order when their interventions become clearly obstructionist or deliberately disrupt the normal development of the General Shareholders' Meeting.

(e) To withdraw the floor when the time assigned to each intervention expires or when, regardless the warnings made under sections (c) and (d) above, the shareholder persists in his conduct. In the exercise of this power, the Chairperson may demand that the shareholder who has repeatedly ignore his requirements leave the room, as well as adopt the appropriate measures to make it effective.

(f) To request the participants to clarify issues that have not been sufficiently explained during the intervention.

(g) To resolve questions that may arise during the General Shareholders' Meeting regarding the rules established in these Regulations."

9.3. Adding a new article 15 of the Regulations of the General Shareholders' Meeting to regulate the attendance and participation of the General Meeting by electronic means.

Article 15 would be drafted in the terms indicated below:

"Article 15. Attendance and participation by electronic means

Attendance at the General Shareholders' Meeting may be carried out by electronic means that provide the necessary assurance of the identity of the shareholder or his representative and that allow real-time connection with the General Shareholders' Meeting venue, as well as remote electronic voting during the Meeting. The Board of Directors will set in the announcement the procedure for the exercise of shareholders' rights in this way.

Provided that the Law does not provide otherwise, attendance at the General Shareholders' Meeting may also be carried out exclusively by electronic means, in which case it will be deemed to be held at the registered office, regardless of where is the Chairman of the Meeting. Likewise, the Board of Directors will set in the announcement the procedure for the exercise of shareholders' rights in this way."

1. Amount of the Share Capital Increase, number and value of the shares to be issued

2. Consideration for the Share Capital Increase. Description of the Credit Right to be contributed

The New Shares will be subscribed by Luxembourg entity CK Hutchison Networks Europe Investments S.À R.L., a company incorporated and existing in accordance with the laws of Luxembourg, with registered address at 7, rue du Marché-aux-Herbes, L-1728 (Luxembourg), recorded at the Luxembourg Companies Registry under number B74650 (the "Contributing Entity"), and they will be fully paid up by the latter through the contribution of a credit right (the "Credit Right"), as is set out in the following paragraph, provided the Conditions have been met, as such term is defined in section 5 below.

The Credit Right, which will form part of Cellnex's assets following the execution of the Share Capital Increase, consists of a credit right to be held by the Contributing Entity against CK Hutchison Networks (UK) Limited, an English law entity, incorporated as a limited liability company, with registered address at Star House, 20 Grenfell Road, Maidenhead, Berkshire (United Kingdom – SL6 1EH) and recorded at Companies House for England and Wales under number 12985914 ("CK Hutchison UK"), for the amount of one billion, three hundred and fifty-two million, two hundred and eighty-one thousand, six hundred and twelve euros (1,352,281,612 euros), and which will be due and payable on the execution date of this Share Capital Increase resolution.

The New Shares in the Company issued by virtue of the proposed Share Capital Increase will be subscribed by the Contributing Entity by contributing the Credit Right, in the terms envisaged in Article 300 of the Spanish Companies Law and Article 168.2 of the Commercial Registry Regulations.

The Credit Right will amount to one billion, three hundred and fifty-two million, two hundred and eighty-one thousand, six hundred and twelve euros (1,352,281,612 euros), a valuation that must be confirmed by means of a report issued by an independent expert appointed by the Commercial Registry for that purpose, pursuant to the provisions of Article 67 of the Spanish Companies Law and Article 338 of the Commercial Registry Regulations and related articles. In any event, the report will have to confirm that the valuation of the Credit Right corresponds, at least, to the nominal value and share premium of the New Shares issued as a result of the Share Capital Increase.

3. Representation of New Shares

The New Shares will be represented by book entries, to be recorded by the management company of the entity Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.U. (Iberclear) and its participant entities.

4. Non-existence of pre-emptive subscription right

The proposed Share Capital Increase does not involve a pre-emptive subscription right over the New Shares, as it is a capital increase by means of non-monetary contributions, pursuant to Article 304 of the Spanish Companies Law.

Note: This document is a translation of a duly approved Spanish language document, and is provided for information purposes only. In the event of any discrepancy between the text of this translation and the text of the original Spanish language document which this translation is intended to reflect, the text of the original Spanish language document shall prevail.

5. Conditions to which the execution of the Share Capital Increase is subject

The execution of the Share Capital Increase is subject to the report, issued by the independent expert appointed by the Commercial Registry to determine the value of the Credit Right to be contributed, confirming that its valuation corresponds to the nominal value of the New Shares and to the share premium they are issued with and, ultimately, to the global amount of the Share Capital Increase (i.e. one billion, three hundred and fifty-two million, two hundred and eighty-one thousand, six hundred and twelve euros (1,352,281,612 euros)).

ELEVENTH. - Relating to item 11 on the agenda.

To delegate to the company's Board of Directors, in accordance with Article 297.1.b) of the Spanish Companies Law, the power to increase the share capital, without prior consultation of the General Shareholders' Meeting, within the period specified for this purpose and up to the maximum amount stipulated by the Spanish Companies Law, with or without pre-emption rights, and amending accordingly the article of the Company's articles of association relating to share capital, in accordance with the following conditions:

1. Authorized capital, amount and term: the Board of Directors is granted powers as broad as required by law to increase the share capital, in accordance with Article 297.1.b) of the Spanish Companies Law, without seeking the prior approval of the General Shareholders' Meeting, on one or several occasions and at any time in the five years following the General Shareholders' Meeting, by an amount corresponding to half of the share capital at the time the authorization is granted (i.e. 60,838,583.625 euros in nominal value), by issuing new ordinary shares or any other type of shares in accordance with the applicable legal requirements – with or without share premium – for cash consideration.
2. Scope of the delegation of powers: The Board of Directors may set all the terms and conditions of the capital increases and the characteristics of the shares, determine to which investors and on what markets the new shares are to be offered and the procedure for placing them, freely offer any new shares that are not subscribed in the pre-emption period and, in the event of undersubscription, determine that the capital increase is cancelled or that the capital is increased only by the amount of the shares actually subscribed and amend accordingly the Article of the Articles of association relating to share capital.

The Board of Directors may appoint the person or persons, whether directors or not, who are to execute any of the resolutions it may adopt under this authorization, in particular any resolution closing a capital increase.

3. Rights attached to new shares, issue price and consideration: the new shares issued in any capital increase(s) resolved upon under this authorization will be ordinary shares carrying the same rights as the existing ordinary shares (except for any dividends declared but not yet paid at the time of issue) and will be issued at their nominal value or at whatever premium may be decided. Only cash consideration will be accepted for the new shares.
4. Exclusion of pre-emption rights: in accordance with Article 506 of the Spanish Companies Law, the Board of Directors is expressly granted the power to wholly or partly exclude any pre-emption rights in respect of all or any of the shares issued under this authorization – although this power will be limited to capital increases carried out under this authorization and any increases carried out under the delegation of powers provided for in item twelve of

Note: This document is a translation of a duly approved Spanish language document, and is provided for information purposes only. the agenda – up to an amount equivalent to 10% of the company’s capital at the effective date of this decision (i.e. 12,167,716.725 euros in nominal value).

Under applicable law, the Board of Directors may exercise the power granted to it under the preceding paragraph when the interests of the company so require, provided the nominal value of the shares to be issued, plus any premium, matches the fair value of the company’s shares as determined in the report that must be prepared, at the Board of Directors’ request, by an independent expert appointed for that purpose by the Companies Register on each occasion when the power to exclude the pre-emption rights under this paragraph is exercised.

5. Application for admission to trading: the Board of Directors is granted powers to apply for any shares issued hereunder to be admitted to trading, or delisted, – or, if the nominal value of the shares already issued is changed, for the shares to be delisted from, and re-admitted to, trading – on organized Spanish or foreign secondary markets, in compliance with the applicable rules on trading, continued trading and delisting.
6. Power to sub-delegate: the Board of Directors is empowered to sub-delegate the powers referred to in this resolution to any member of the Board of Directors or any other person, whether a director or not.

It is noted for the record that the report of the directors supporting the proposal to delegate powers to increase share capital has been made available to shareholders.

Lastly, it is proposed that the Ninth Resolution adopted by the Ordinary General Shareholders’ Meeting of the Company on 21 July 2020, authorizing the Board of Directors of the company to increase share capital, be revoked to the extent that said authorization has not been exercised.

TWELFTH. - Relating to item 12 on the agenda.

To delegate to the Board of Directors of the company, in accordance with the general rules on the issue of bonds and with the provisions of Articles 286, 297, 417 and 511 of the Spanish Companies Law and Article 319 of the Companies Register Regulations, the power to issue securities in accordance with the following terms:

1. Securities to be issued: The securities to be issued may be debentures, bonds or other similar fixed-income securities convertible (or contingently convertible) into shares of the company. This authorization may also be used to issue preferred securities (if permitted by law) and warrants (options to subscribe for new shares of the company).
2. Term of the delegation of powers: The securities issued under this authorization may be issued on one or several occasions over a period of five years from the date on which this resolution is adopted.
3. Maximum amount to be issued: The Board of Directors is authorized to issue the securities referred to in paragraph 1 above for a maximum amount such that the nominal amount of the capital increases carried out under this authorization, together with that of any increases decided upon under other authorities proposed by the Board of Directors to the General Shareholders’ Meeting in accordance with Article 297.1.b) of the Spanish Companies Law and still in force, do not exceed half the share capital amount at the date the authorization is granted. The amount of any capital increases carried out under this authorization for the

purpose of converting bonds, warrants or other securities will thus be considered to be included within the limit available for share capital increases at any given time.

The abovementioned limit will be calculated taking into account the maximum number of shares into which the bonds may be converted, given their initial conversion ratio, if fixed, or their minimum conversion ratio, if variable, without prejudice to any adjustments that may be made to the conversion ratio after the securities have been issued.

In the case of warrants, the calculation will take the sum of the premiums and exercise prices of any warrants issued under this authority into account.

Finally, if the terms of these instruments provide for the possibility of the coupon being paid in newly issued shares, the limit available under this authority will be calculated taking into account in addition the maximum number of shares that could be issued from the time the securities are issued until they mature to make the payment of the aforementioned coupon, using the quoted price of the Company's share at the time of issue.

4. Scope of the authorization: In exercise of the power delegated under this resolution the Board of Directors will have power to determine, including but without limitation, for each issue, the amount of the issue, always within the stated limit, the place of issue (in Spain or abroad), the currency and, where foreign, the equivalent amount in euros; the name or type, whether bonds, debentures (including subordinated debentures), warrants, preferred securities or any other form permitted by law; the date or dates of issue; the number of securities and their nominal value, which must not be less than the nominal value of the shares; in the case of warrants and similar securities, the issue price and/or premium, the exercise price (which may be fixed or variable) and the procedure, deadline and other conditions for exercise of the right to subscribe for the underlying shares or, where applicable, the exclusion of that right; the interest rate, whether fixed or floating, whether payable in cash or in kind (in treasury shares or newly issued shares) and the coupon payment dates and procedures; the perpetual or redeemable nature of the securities and, where redeemable, the redemption period and the maturity date or dates; the guarantees, the redemption price, premiums and stages; the form of the securities, i.e. certificated or book-entry; any anti-dilution provisions; the subscription arrangements; the seniority of the securities and any subordination provisions; the applicable legislation; where applicable, application for admission of the issued securities to trading on regulated or unregulated secondary markets, whether organized or not, in Spain or abroad, subject in each case to applicable legal requirements; and, in general, any other term or condition of the issue, as well as the appointment of the trustee, where applicable, and the approval of the basic rules that are to govern the legal relationship between the company and the syndicate of security holders, where the formation of such a syndicate is required or is decided upon.

Furthermore, where deemed appropriate and subject to any necessary authorizations and the consent of the assemblies of the relevant syndicates of security holders, the Board of Directors is empowered to amend the redemption terms and period of any fixed-income securities issued and, where applicable, the rate at which the securities included in each of the issues carried out under this authorization earn interest.

5. Basis and procedures of conversion: The bases and procedures of conversion of any convertible debentures or bonds issued under this resolution are as follows:

- a) Securities issued under this resolution will be convertible into shares of the company in accordance with a determined or determinable, fixed or variable conversion ratio – the Board of Directors having the power to determine whether the securities are to be mandatorily, contingently or optionally convertible – and, where convertible at the option of the holder or the company, will be convertible at the times and within the period specified in the issue resolution, which must not exceed 15 years from the date of issue. Said maximum period will not apply to perpetual convertible securities.
 - b) For the purpose of conversion, the securities will be valued at their nominal amount and the new shares to be issued, at a fixed conversion rate specified in the Board of Directors resolution adopted in exercise of this authorization or at the variable rate to be determined on the date or dates indicated in the Board of Directors resolution, based on the market price of the company’s shares on the date(s) or in the period(s) taken as a reference in that resolution, at a premium or at par, the Board of Directors being able to decide the criteria for conversion it considers most appropriate.
 - c) The Board of Directors may also resolve to issue convertible fixed-income securities with a variable conversion ratio. In that case, the price of the shares for the purpose of conversion will be the price determined by the Board of Directors, which may include a premium or, as the case may be, a discount on the price per share resulting from the established criteria. The premium or discount may be different for each date of conversion of each issue (or, where applicable, for each tranche of an issue).
 - d) When the conversion takes place, any fractions of shares to be delivered to the holder of the securities will be rounded down to the nearest whole number and, where so provided in the issue terms, each holder will receive the difference in cash.
 - e) Under no circumstances, will the value of the share for the purpose of determining the ratio of conversion of fixed-income securities into shares be less than the nominal value of the share. Likewise, in accordance with Article 415 of the Spanish Companies Law, fixed-income securities must not be converted into shares when the nominal value of the fixed-income securities is less than that of the shares.
 - f) At the time of approval of an issue of convertible debentures or bonds under the authorization granted in this resolution, the Board of Directors will issue a report determining and specifying the basis and procedures of conversion applicable to the securities in question, based on the criteria set out above. This report will be accompanied by the report referred to in Article 414.2 of the Spanish Companies Law, issued by an auditor other than the company’s auditor, appointed for this purpose by the Companies Registrar.
6. Basis and procedures of exercise of warrants and other similar securities: The criteria applicable to issues of warrants are as follows:

In order to determine the basis and procedures of exercise of warrants (which, by analogy, will be subject to the provisions of the Spanish Companies Law applicable to convertible bonds), the Board of Directors is empowered to determine, in the broadest terms, the criteria applicable to the exercise of the rights to subscribe for shares of the company attached to any warrants issued under this authorization, applying the criteria set out in

section 5 above, adapted as necessary to make them compatible with the legal and financial regime governing warrants.

7. Under this resolution, the Board of Directors is also delegated the following power to, including, but without limitation:

a) Pursuant to Article 511 of the Spanish Companies Law (relating to Article 417 of that Act), to wholly or partly exclude shareholders' pre-emption rights. In any case, if the Board of Directors decides to exclude shareholders' pre-emption rights in respect of any particular convertible debentures or bonds, warrants or other similar securities issued under this authorization, it must issue a report, at the time of approval of the issue and in accordance with applicable laws and regulations, stating the specific reasons of corporate interest that justify this measure, accompanied by the report by an independent expert appointed by the Companies Register that is referred to in Articles 414, 417 and 511 of the Spanish Companies Law. The abovementioned reports must be made available to the shareholders and notified at the first General Shareholders' Meeting held after the issue resolution.

This authorization will in any case be limited to share capital increases carried out under this authorization and any others carried out under the authorization provided for in item 9 of the agenda, up to a maximum aggregate nominal amount equal to 10% of the share capital at the date of adoption of this resolution (i.e. 12,167,716.725 euros in nominal value).

b) Increase capital by the amount needed to satisfy conversion requests or requests to exercise the right to subscribe for shares. This authorization may only be exercised to the extent that the Board of Directors, taking the sum of any capital increases carried out for the issue of convertible bonds, warrants and other similar securities and any other capital increases resolved upon under authorities granted by this General Shareholders' Meeting, does not exceed the limit of half the share capital amount specified in Article 297.1.b of the Spanish Companies Law. This authorization to increase capital includes the authorization to issue and put into circulation, on one or several occasions, the number of shares required to carry out the conversion into shares or satisfy the right to subscribe for shares and the power to amend the article of the articles of association relating to capital accordingly and, where necessary, to cancel any part of the capital increase that was not required for the conversion into shares or exercise of the right to subscribe for shares.

c) Determine and specify the basis and procedures of conversion or exercise of the rights to subscribe for shares attached to the securities to be issued, taking the criteria set out in sections 5 and 6 above into account.

It also gives the Board of Directors the power to rectify and supplement those resolutions as required and to meet any associated legal requirements, which may include making good any omissions or defects of the resolutions identified by any authority, public official or body, whether Spanish or foreign; and the power to make any decisions and issue any public or private documents
