

## Cellnex launches its new website

The focus of the new multi-country, multi-language and multi-device portal is to publicise the solutions and technologies the company offers to facilitate connectivity for both people and territories.

The portal also provides improved transparency and better access to information concerning the Group's ESG policies, Corporate Governance and information to shareholders.

To mark the seventh anniversary of the IPO, the company is updating the information published on the website to reflect the growth and evolution it has experienced.

---

**Barcelona, 24th May 2022.** Today, Cellnex Telecom, Europe's principal wireless telecommunications infrastructure operator, simultaneously unveils its new website ([www.cellnex.com](http://www.cellnex.com)) in the 12 countries in which it operates, with a focus on publicising the solutions and technologies it offers to facilitate connectivity for both people and territories.

To mark the seventh anniversary of the company's IPO, Cellnex is updating its website and launching this new digital window for everyone interested in knowing more about the products and services it offers, the innovative projects in which it participates, its business, and the details of the social and environmental impact of its activity.

The company has grown and evolved over these last seven years. Cellnex currently operates in 12 countries, has a portfolio of over 137,000 sites, with more than 250 million people in Europe enjoying telephony, data, radio and TV over its infrastructures, and has a team of over 3,000 professional staff of 55 different nationalities. In line with this growth, the new website is updating its digital image and evolving into a multi-country, multi-language and multi-device portal. Anyone in any of the 12 countries from which Cellnex operates will be able to easily find information on the connectivity solutions and technology that the company can deploy, from any device and in the language they prefer. To improve the browsing experience, the information has been distributed by sectors and products, adding use cases to provide a better understanding of connectivity solutions. A service and product search engine has also been created that makes it easy to find information in just a few steps.

On this new website, great importance has been given to the Sustainability section, where the company will publish all the information related to the social and environmental impact of its activity, as well as matters related to governance. Also noteworthy is the new Talent section, where you can find out about the professional opportunities the company can offer.

### About Cellnex Telecom

The efficient deployment of next-generation connectivity is essential to drive technological innovation and accelerate inclusive economic growth. Cellnex Telecom is the independent wireless telecommunications and broadcasting infrastructure operator that enables operators to access Europe's most extensive network of advanced telecommunications infrastructure on a shared-use basis, helping to reduce access barriers for new operators and to improve services in the most remote areas.

Cellnex manages a portfolio of more than 137,000 sites - including forecast roll-outs up to 2030 – in Spain, Italy, the Netherlands, France, Switzerland, the United Kingdom, Ireland, Portugal, Austria, Denmark, Sweden and

Poland. Cellnex's business is structured in four major areas: telecommunications infrastructure services; audiovisual broadcasting networks, security and emergency networks and solutions for smart urban infrastructure and services management (Smart cities and the "Internet of Things" (IoT)).

The company is listed on the continuous market of the Spanish stock exchange and is part of the selective IBEX 35 and EuroStoxx 100 indices. It is also present in the main sustainability indexes, such as CDP (Carbon Disclosure Project), Sustainalytics, FTSE4Good, MSCI and Standard Ethics. Cellnex's reference shareholders include Edizione, GIC, TCI, Blackrock, Canada Pension Plan, CriteriaCaixa, Wellington Management Group, Capital Group, FMR and Norges Bank.
