“CK Hutchison Holdings Transaction in respect of the United Kingdom

On 3 March 2022, the United Kingdom Competition and Markets Authority (“CMA”) approved the CK Hutchison Holdings Transaction in respect of the United Kingdom, subject to the divestiture by Cellnex of a limited subset of approximately 1,000 sites operated by Cellnex in the United Kingdom that geographically overlap with the sites owned or operated by a group company of Hutchison in the United Kingdom (the “**Divestment Remedy**”), and on 12 May 2022, the CMA announced the acceptance of the final undertakings in relation to the Divestment Remedy. In this regard, on 24 October 2022 Cellnex announced that it had reached an agreement for the disposal of approximately 1,100 sites with Wireless Infrastructure Group in accordance with the final undertakings accepted by the CMA on 12 May 2022. Following such agreement and satisfaction of the final condition precedent, on 11 November 2022, Cellnex announced the completion of the CK Hutchison Holdings Transaction in respect of the United Kingdom.

The consideration for the CK Hutchison Holdings Transaction in respect of the United Kingdom was settled partly in cash and partly by the issue to Hutchison of new shares of Cellnex and the transfer to Hutchison of treasury shares held by Cellnex. On 28 April 2022, the general shareholders’ meeting of Cellnex approved (delegating its execution on the Board of Directors) a share capital increase by means of an in kind contribution for the payment of the portion of the consideration to be settled in shares, which was a renewal of its initial approval for such capital increase passed on 29 March 2021. This resulted in Hutchison receiving at closing of the CK Hutchison Holdings Transaction in respect of the United Kingdom approximately 34.1 million shares of Cellnex (including approximately 27.1 million new shares and 7 million treasury shares), representing an interest of 4.8% in Cellnex’s share capital.”

Furthermore, the following text shall, by virtue of this Supplement, be inserted and replace in its entirety the section entitled “Recent Developments – Hivory Acquisition” (which is on page 45) as follows:

“Hivory Acquisition

In the first quarter of 2022, the Group entered into several transactions with the aim to fulfil the disposals required by the French CA as a condition for the approval of the Hivory Acquisition (see “*Description of the Guarantor – History and Development*” for additional detail on the remedies required).

Firstly, on 23 February 2022, Cellnex France and Phoenix France Infrastructures (in the presence of Bouygues Telecom) entered into a business transfer agreement which sets forth the terms and conditions under which Cellnex France will sell to Phoenix France Infrastructures (or to any company controlled by Phoenix France Infrastructures that Phoenix France Infrastructures would substitute) 2,000 sites located in very dense areas of France. The effectiveness of this agreement was subject to French regulatory approvals, the last of which was obtained in October 2022. The sale will be carried out at a price to be calculated pursuant to the agreement which takes into account the profit generated by such sites, for an expected total amount of approximately €600 million, net of taxes.

In addition, on 18 March 2022, Hivory, Cellnex France and Phoenix Tower France II (a company of the Phoenix Tower International group) entered into a share purchase agreement which sets forth the terms and conditions under which Hivory will transfer to Phoenix Tower France II 1,226 sites located in very dense areas of France. The effectiveness of this agreement was subject to French regulatory approvals, the last of which

was obtained in October 2022. The sale will be carried out at a price to be calculated pursuant to the agreement which takes into account the profit generated by such sites, for an expected total amount of approximately €235 million, net of taxes.

New projects and extension of projects with Bouygues Telecom

Likewise, in the first quarter of 2022 the Group and Bouygues Telecom entered into various agreements in order to contractualise, among other things, a new build-to-suit program in France with a view for Cellnex to neutralise capital expenditure and adjusted EBITDA expected impacts from the remedies required by the French CA in connection with the Ivory Acquisition, on a run rate basis.

In particular, in February 2022 the Group contracted with Bouygues Telecom a build-to-suit program of up to 1,350 sites in rural areas of France, to be deployed by 2029 with an estimated capital expenditure of up to approximately €310 million. The transaction is structured in a way similar to the Bouygues Telecom Strategic Agreement (see “*Description of the Guarantor –History and Development*”).

In addition to the foregoing, also in February 2022 Cellnex France and Bouygues Telecom extended an existing build-to-suit program in very dense areas of France of up to 1,500 additional sites to be deployed by 2029 with an estimated capital expenditure of up to approximately €490 million.

Lastly, in February 2022 the Group increased the scope of its existing program with Bouygues Telecom involving strategic sites with data processing capabilities by adding up to 2 additional mobile switching centres, transferred on 15 December 2022 with an estimated capital expenditure of up to approximately €90 million.”
