

Cellnex, a new member of the World Economic Forum (WEF)

- This agreement aims to project the industrial discourse about our sector, create community, foster dialogue and strengthen collaboration networks with companies and institutions.
- Through this partnership Cellnex can build connections to achieve significant impact.

Barcelona, 25 June 2025.- Cellnex has signed an agreement to become a member of the World Economic Forum (WEF). This agreement aims to project the industrial discourse about our sector, create community, foster dialogue, and strengthen collaboration networks with companies and institutions.

As a leader in telecommunications infrastructure, Cellnex joins the WEF to contribute its expertise as a European-wide reference in the sector. According to Ignacio Jiménez Soler, Communication and Public Affairs Director of Cellnex, "For us, this represents a great opportunity to create new avenues of collaboration with policymakers and other key stakeholders".

Through this partnership, the company can build connections and shape future strategies, bringing together the public and private sectors to achieve significant impact. "These centers can offer Cellnex the opportunity to address global challenges, drive transformation, and position Cellnex as a leader of change in the industry," said Ignacio Jiménez Soler.

Cellnex will initially engage with the Centre for the Fourth Industrial Revolution (C4IR), a global initiative designed to help governments, businesses, and civil society anticipate and shape the trajectory of emerging technologies, and the AI Governance Alliance, a global multistakeholder initiative to provide guidance, tools, and resources to facilitate the responsible and inclusive development and deployment of generative Artificial Intelligence (AI) technologies worldwide.

About Cellnex Telecom

Cellnex is Europe's largest telecommunications towers and infrastructures operator, enabling operators to access a wide network of telecommunications infrastructures on a shared-use basis, and thus helping to reduce access barriers and to improve services in the most remote areas. The Company manages a portfolio of more than 130,000 sites, including forecast roll-outs up to 2030, in 10 European countries, with a significant footprint in Spain, France, the United Kingdom, Italy and Poland. Cellnex, which is listed on the Spanish Stock Exchange, is part of the selective IBEX35 and Euro Stoxx 100 and enjoys outstanding positions on the main sustainability indices such as CDP, Sustainalytics, FTSE4Good, MSCI and DJSI Europe.
