## CELLNEX TELECOM ESPAÑA S.L.

The organization has offset a total of 400 tCO<sub>2</sub>e in order to mitigate the emissions associated with its carbon footprint for the 2025 reporting year.

The emissions have been offset through the following project:

Reforestation Project #2023-b024 – San Isidro I (Campo Lameiro Municipality) Pontevedra, registered under section (b) “Absorption Projects” of the Carbon Footprint Registry, regulated by Royal Decree 214/2025 of 18 March, and administered by the Spanish Office for Climate Change (OECC), under the Ministry for the Ecological Transition and the Demographic Challenge (MITERD).

Anthesis Group invests in carefully selected carbon projects that combine CO<sub>2</sub> reduction and/or removal solutions with social and environmental co-benefits that go beyond carbon. These socially progressive projects improve the quality of life of communities affected by climate change. As such, they are a powerful tool for sustainable development.
